

TAX-FREE PROVISIONING MONTENEGRO

BB
BERBA

CHAMPAGNE, WINE & SPIRITS
SUMMER 2017

Not only is it easy, but it requires virtually no effort from the boat apart from providing us with a couple of documents, which we'll come to collect. The only important thing is timing, as boats can often take much more wine tax-free in advance of their charter than on the day of. So, if you are the one ordering, please read the following carefully:

TAX-FREE ALLOWANCES

There are two ways in which a boat may take tax-free wine and spirits on board:

A) In Advance: This option is ideal for those boats that are picking up guests in Montenegro and want their wine on board before the guests arrive. While in Montenegro, a boat's allowance at the time of delivery is up to 1 litre per person, *per day remaining* in the country. For example, if there are ten people on board, and the boat will be staying in Montenegro for another five days, it may take 50 litres (10 people x 5 days x 1 litre = 50 litres ... or about 66 bottles of 750 mL). What's important to remember is that the calculation is based on the number of days between and including the delivery day and the departure day... this means that every day you wait to take delivery, your tax-free allowance declines.

B) On Departure: This option is often better for boats with a very short turn-around. At the time of check out (on the fuel or customs quay) a boat may take up to three litres per person on board. So, for example, if there are now 18 people on board, then the boat may take 54 litres (18 people x 3 litres = 54 litres or 72 bottles of 750 mL) tax-free.

For large orders, a boat may use both options, provided that the same day is not counted twice.

Please note that the allowance is based only on the total number of people on board at the time of delivery (i.e. the combined number of crew and passengers, if any). That's right: crew count towards a boat's allowance! However, those not yet on board — such as charter guests who have yet to arrive — cannot be counted.

THREE EASY STEPS TO GETTING YOUR WINE

1) First, decide what you want: select your wines from this catalogue or feel free to send us your preference sheet and we will quickly put together some options for you. We will always confirm availability, as it's not inconceivable that one or two of the rare wines will run out at some point.

2) At the time of delivery, we will come to the boat to collect some documents for customs clearance. Please have the following items ready for us:

- A photocopy of your boat's registration certificate,
- Your official crew list, stamped by the harbour master and with vignette attached (the original copy)
- Your official passenger list, if necessary, stamped by the harbour master (the original copy)
- Your boat's stamp

3) After customs reviews everything — which usually takes about 15 minutes — we will come back to the boat to return your documents, deliver the wine and collect payment.

So you see, it's very easy and you don't even have to leave your boat! The only critical thing is ensuring that your documents are in order and that the delivery is within your tax-free allowance. By the way, items that you may buy with tax included, such as local wines from Crush Wine Station, do not count towards your allowance. Feel free to ask us, we will always recommend the best option for you.

THE “BERBA” ADVANTAGE

Most provisioning companies are actually logistics companies: they source to order and then send via air freight to your boat’s location. At Berba we do things quite differently. First, every single bottle in this catalogue is already in Tivat, Montenegro, stored in our custom-built, climate-controlled cellars about 200 meters from Porto Montenegro. This means that we can fulfill last-minute orders or changes to orders but — more importantly — it eliminates all of the risk as to how your wine will be treated during transport or that it will arrive on time.

Second, every single bottle in this catalogue has been sourced and shipped — in climate-controlled transport — directly from the producer. We never buy from supermarkets, dealers, charming old cellars or anything like that. The only exception is the classified growth Bordeaux which we buy from two top négociants in Bordeaux because, well, one must. This means, of course, that we can be absolutely assured of every bottle’s provenance and that it has been perfectly looked after at all times.

CONTENTS

This year, we are offering a simplified catalogue so that choosing your wine is easy. The wines are organized primarily by region, though with Champagne and sparkling wines first, and then all rosé, since these categories “transcend” region. As we are often asked for local suggestions, we’ve put together a “best of” section of wines from Montenegro, Croatia and former Yugoslavia. They’re all worth a try and we’re sure you’ll be delighted.
